Reducing Environmental Footprint

Water Reduction

At our company, we harness cutting-edge technologies to dramatically minimize water consumption, empowering our customers to better steward this invaluable resource.

Carbon Emission Reduction

Our innovative strategies are designed to decrease greenhouse gas emissions, cut down on overall ownership costs, and play a part in creating a healthier planet for all of us.

Waste & Material Management

We prioritize sustainable practices in materials and waste management to enhance user experience while being environmentally friendly.

Benefits for our Customers

Credibility & Trust

Our sustainability performances enhance our reputation as a sustainable and ethical company instilling trust among our customers and partners. Partner with a company that is unwavering in its commitment to sustainability.

Innovation & Efficiency

Our sustainability initiatives power innovation and efficiency, delivering top-quality products and solutions at reduced costs. Take advantage of our cutting-edge, cost-effective and environmentally friendly solutions.

Competitive Advantage

Our recognition by EcoVadis, CDC and Sustainalytics for ESG sets us apart, attracting sustainability-conscious customers and trusted partners. Partner with a sustainability leader to gain a competitive edge.

Strengthened Relationships

Our recognition and ratings significantly enhance our relationships with suppliers and stakeholders, fostering closer and more sustainable collaboration.

Risk Reduction

By embracing sustainable practices, we mitigate environmental and social risks, ensuring improved safety and compliance for our customers. Collaborate with us to minimize risks and safeguard your business.

At Electrolux Professional Group, Sustainability is at the heart of everything we do

We leverage EcoVadis' comprehensive sustainability rating framework to identify risks, seize opportunities, and benchmark our performance against industry best. Our unwavering commitment to sustainability is demonstrated through our steadfast focus on EcoVadis' four key pillars.

These pillars not only enhance our sustainability practices but also provide significant added value to our customers, including improved reputation, stronger supplier relationships, reduced risks, and innovative opportunities.

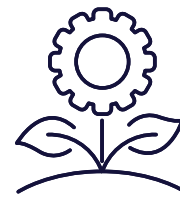

Environment

**Labor &
Human Rights**

Ethics

**Sustainable
Procurement**

Environment

1. At Electrolux Professional Group, we are committed to reducing our **environmental footprint**. Through innovative strategies, **we lower greenhouse gas emissions**, which reduces the total cost of ownership of our solutions while contributing to a healthier planet.
2. Our water use methods are designed to **conserve this precious resource**. Through the implementation of advanced technologies and innovative practices, we confidently assist our customers in significantly **reducing their water consumption**, thereby providing them with increased access to water for their daily needs.
3. Our emphasis on materials, chemicals, and waste management is designed to optimize user experience. We prioritize human-centric product design and safety to deliver products are not only **effective but also environmentally sustainable**.

Labor & Humain rights

1. At Electrolux Professional Group, we are a **responsible employer** and a **valued workplace** for employees and future generations. We adopt **sustainability practices** both environmentally and socially, making us the employee choice to work with.
2. We promote **social dialogue and improved working conditions**, ensuring a better workplace for employees and future generations. Our commitment to career management fosters employee skill development, while our **focus on diversity, equity, and inclusion** provides flexible working conditions, health check-ups, and internal mobility.
3. Our dedication extends beyond our own operations. We work closely with our suppliers to ensure they adhere to the same high standards, **promoting fair labor practices and human rights** throughout our supply chain.

Ethics

1. At Electrolux Professional Group, integrity is the cornerstone of our sustainable business practices. We are a **responsible company worldwide**, adopting environmentally, socially, and ethically sustainable practices. This commitment makes us a **trustworthy company and a preferred partner**.
2. We combat corruption through comprehensive awareness training programs and stringent conflict of interest approval procedures. Our anti-money laundering measures, including whistleblower procedures, safeguard our stakeholders and ensure **transparency in all our operations**.
3. By fostering a culture of accountability and responsibility, **we build trust and strengthen our reputation**. This dedication to **ethical behavior** not only protects our business but also contributes to a fairer and more just society.

Sustainable procurement

1. At Electrolux Professional Group, we believe that sustainable procurement is essential for creating long-term value. By integrating sustainability into our procurement practices, we ensure that **our supply chain is both responsible and resilient**.
2. We support businesses in implementing **robust supplier codes of conduct** and conducting on-site audits to address environmental and social issues. These practices contribute to a better workplace for future generations and ensure that our **supply chain meets high standards**.
3. Our lifecycle analysis of key products embeds sustainability at every stage of production. This approach not only **enhances supplier relationships** but also **drives innovation and efficiency** across the supply chain. By prioritizing sustainable procurement, we help our **customers achieve their sustainability goals**.
